> Digital marketing student with three years of hands-on e-commerce experience. At **LEDart** I help run the **LEDAKCIA network of 8 online stores** across Central and Eastern Europe – from product data and copy to promo graphics and customers in our Bratislava store. I use AI tools every day and build my own small tools with them that save the whole team time.

EXPERIENCE

E-commerce & Marketing Assistant
2023 – present

LEDart s.r.o., Bratislava · LEDAKCIA.sk and 7 more countries

Full-time in summer 2023 and 2025, part-time alongside school

- **Product catalogue across 8 stores** (SK, CZ, PL, AT, HU, HR, SI, RO) on Shoptet: listing new products, specs, variants, prices and photos.
- **Product copy & SEO** – clear descriptions for LED lighting and smart-home products, translated and localised for foreign markets with AI.
- **Promotions** – materials for "buy 1 get 1 free" and bundle deals: banners, product visuals and social graphics in Canva.
- **Social media** – posts and content for Instagram and Facebook; helped produce product promo videos.
- **Customers** – answering emails and product questions; advice and sales in the Bratislava store.

Administrative Assistant
Jan – Mar 2021

Prvá stavebná sporiteľňa, a.s. · document management and Excel data entry – my first job, while still at secondary school.

PROJECTS · try them live: schemilkabb-bit.github.io

Popisovač · AI product copy generator

Turns product specs into a description, SEO title, meta description and Shoptet HTML in 8 languages at once (Claude API).

Bannerovač · promo banners for 8 markets

One promotion → 32 banners for web, Instagram and Facebook with localised wording and converted prices.

Lighting Advisor · customer-facing tool

Four questions → lumens, light colour, number of pieces, yearly savings and matching products. Plus an in-store poster with a QR code.
